## ADDITIONAL INFORMATION

At Dev Academy, I not only developed my technical skills but also honed my human skills, including nonviolent communication and effective listening and looping. These skills have proven invaluable in collaborating with teammates and clients, and have enabled me to contribute to a positive team culture.

During my time at Dev Academy, I received feedback from my peers that I am a quick learner, a kind and funny person, and a strong team player. I take pride in my ability to adapt to new situations and learn quickly, as well as my dedication to working collaboratively with others. In response to the feedback from my peers, I made a conscious effort to further develop my human skills, including actively listening to feedback and working to build trust and rapport with my teammates. I also worked to improve my communication skills and learn how to provide constructive feedback to others.

Overall, I believe that my technical and human skills, along with my positive attitude and dedication to teamwork, make me a valuable asset to any organization. I look forward to applying these skills in a professional setting and continuing to learn and grow as a developer and team player.
